Professional Profile :

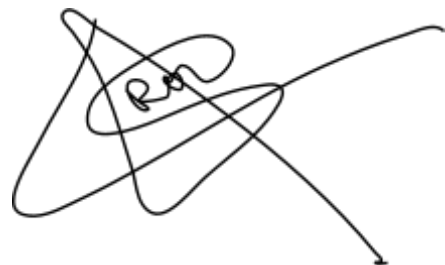

Enthusiastic and results-driven third-year software engineering student, showcasing a rich tapestry of technical skills in C, Java, JavaScript, Kotlin, Python, Dart, PHP, and SQL, with hands-on experience in mobile development and AI. Fluent in Arabic, proficient in French, and highly proficient in English, I seamlessly navigate diverse linguistic landscapes. A collaborative team player, I've honed my communication skills through active participation in club activities and public speaking engagements, notably in the English Speaker Club. Proven leadership abilities shine through my role as a leader in various team projects, where I've consistently demonstrated a strong work ethic and a knack for motivating teams toward success. Eager to contribute my diverse skill set and passion for innovation, I am poised to make meaningful contributions to dynamic projects and collaborative teams within the realm of software engineering.

Core Skills :

- **Technical Skills:**
 - Programming Languages: C, Java, JavaScript, Kotlin, Python, Dart, PHP, SQL.
 - Mobile Development: Experienced freelancer with a track record in creating mobile applications.
 - Artificial Intelligence: Proficient in integrating AI solutions into various projects.
 - Languages: Arabic (Native), French (B2), English (High C1).
- **Additional Technical Skills:**
 - Meeting Room Booking: Proficient in managing and organizing meeting spaces through digital platforms.
 - Microsoft Office: Highly skilled in using Microsoft Office suite for efficient documentation, presentations, and data analysis.
- **Soft Skills:**
 - Teamwork: Proven collaboration through team projects and club activities.
 - Communication: Effective communication skills in diverse linguistic environments.
 - Public Speaking: Accomplished speaker in the English Speaker Club, demonstrating articulate communication.
 - Leadership: Natural leader, often taking charge in team projects for successful outcomes.
 - Hardworking: Recognized for a strong work ethic and dedication to achieving exceptional results.

Career :

- University (2021 - now) :
 - First year :
Speciality : math and computer science
 - Second year :
Speciality : software engineering and information systems
 - Third year :
Speciality : software engineering and information systems
Diploma (upcoming) : baccalaureate in software engineering and information systems
- Mobile dev (2020 - now)
 - Native code with Kotlin
 - Cross platform with Flutter
 - relational and non relational database
 - Api
 - firebase
 - mongoDb
 - notifications and permissions
- Web dev (lately in 2024)
 - Next Js
